SUMMARY

Final-year Computer Science and Engineering student who enjoys turning a design into a working website. Have built and deployed two responsive sites end to end, including one for a real client, using HTML, CSS, and JavaScript, with a focus on clean and user-friendly interfaces. Passionate about improving design and development skills through practical projects and creative problem-solving.

PROJECTS

Mithila Tours & Travels - Business Website - HTML, CSS, JS | [GitHub Repo](#) Aug 2026 - Present

- Built a 4-page responsive website for a family-run car rental business in Madhubani, Bihar, covering wedding, local, outstation, and airport transfer bookings.
- Set up booking, contact, and feedback forms with Formsprees so customer enquiries reach the business by email instead of by phone.
- Designed the layout and colour scheme around local Mithila art rather than a template, and deployed the site on Netlify with continuous deployment from GitHub.

Personal Portfolio Website - HTML, CSS, JS | [GitHub Repo](#) Apr 2026 - Present

- Designed and coded a fully responsive portfolio from scratch, handling layout, styling, and JavaScript interactions without any framework.
- Hosted on GitHub Pages and use it as a live sample of my work when applying for roles

CERTIFICATIONS

- Web Development Basics, IBM SkillsBuild | [Certificate](#)
- Generative AI Studio, Google Cloud | [Certificate](#)
- Machine Learning using Python, Simplilearn | [Certificate](#)

SKILLS

- | | | | |
|---------------------|-----------------|-----------------------|---------------|
| • HTML | • Python | • Node.js | • TypeScript |
| • CSS | • SQL | • Generative AI | • Claude Code |
